

Bulgarian Federation of Radio Amateurs and SK "Electroninvest"

are very pleased to host

***the 7th European radio-orienteering (foxoring)
championship and***

4th European GPS championship

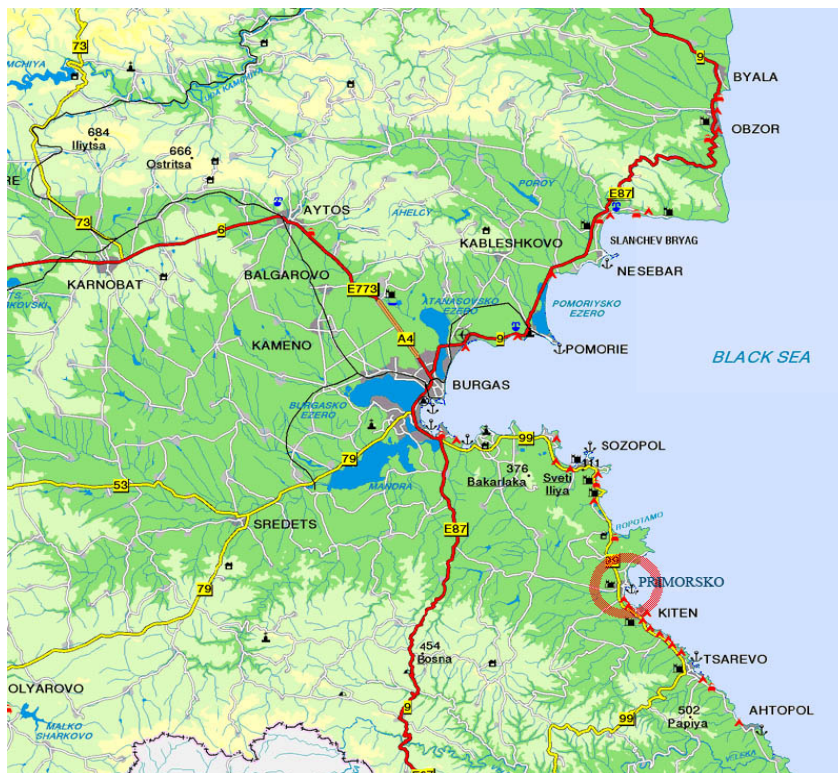

23-25 SEPTEMBER 2011

and invite all societies to take part with teams, individuals and/or visitors

Venue for event:

The Championships will be held in Primorsko, situated at Black Sea coast, 52 km south of Burgas. Primorsko is a relatively small town (population 3000), but one of well known Bulgarian sea resorts. Many factors make it a preferable destination for the summer vacation – ecologically pure region, 10-km-long beach, active nightlife. The town is situated on a small peninsula on the coast of Black Sea, on the foot of small mountain heights leading to the beach. Primorsko is the most northerly town in Bulgaria where citrus plants grow. The entire coast along Primorsko is full of ancient ruins. One of the famous landmarks in Primorsko is a forest reserve Ropotame, where a 1-hour boat row is available to the estuary of Ropotamo river. Web site [Primorsko](#)
