

*Dear testers,*

Few participants. That was the main point after our annual event. It has dropped from more than 600 to 420 and we still have no real answers why.

Anyway, let us congratulate the winners of the 49th Baltic Contest and express great thanks to those who joined us in the contest.

After some time we have LY call sign on the top of Baltic SO MIX entry. Darius LY3BN has taken away the victory from Tommas ES5Q finishing with same result, but less mistakes. Arvydas LY2F hasn't left any chances in CW mode and Karlis YL2CI was No 1 in SSB. Andrius LY7Z and cluster has won the medal among teams and Kestutis LYR-346 was the only participant in SWL entry.

Roman UW2M was the best among Europeans in MIX entry, Max RA1AL with very small reserve won in CW. Alexander UA1AQA has showed best skills in SSB. And SP2YWL company will get their medal for winning in

teams race. Among SWLers there were no surprise to see Vladimir R3A-847 with the best result. There were only CW mode used by DX stations, and here we see our well known Markas 4Z4KX at the top.

After long debates the Contest Committee has decided to keep existing rules of the contest at least in 2014. There were lots of interesting and constructive ideas. Many thanks to YL and ES guys for showing huge activity in this debate. However, we have decided to concentrate in promoting the contest, web page and other things we could do without changing the rules. Lets look how it will go.

Big thanks to everybody who took their time to participate and all the sponsors of special trophies. We hope to be back on track with increasing activity and reach the levels we had several years ago.

CU in our 50th anniversary Baltic Contest soon!

*Contest Committee*

### DK8NT

Like last year, while primarily operating the Rey de Espana contest, I called also UN contest participants and a few from the Baltic contest. Here's my checklog in the hope that my QSOs will be valid for those who worked me. Thank you all for the additional contacts!

### DL1IAO

IC756Pro3 (INRAD) + IC4KL (700W), DP at 17m

### DL3KWF

Your statistics of 2012 shows, that 4 hours are enough. In a fair contest have everybody QSOs with everybody, but the relation of points ten to one are to much. No multipliers is very well.

### ES2JJ

Trcvr-IC735 Ant-Delta loop Power-80Watts

### ES5RW

Sorry, but I have to repeat my last year's comments. Boaring, very boaring. Made more than half of the Q's during the first hour, as usual. We NEED to CHANGE something to increase the number of available Q's: start the contest 2 hours earlier, limit the contest time to 4 hours or to split the contest into 2 periods of duration of 2 hours each. Making only ONE single QSO during the last hour does

not does not make any sense staying awake during nighttime. Received a comment from Steve GW4BLE during the contest: "Make it shorter!". Good point, Steve. We cannot avoid discussions anymore.

### GW4BLE

LIFE IS GOOD! - I am CLEAR OF CANCER, all treatment was a success.  
I agree with ES5RW, this contest needs to change. Please start the contest earlier or make it no more than two or three hours long.  
audio from my contest QSOs is available at [www.gw4ble.dxlist.co.uk](http://www.gw4ble.dxlist.co.uk)

Po visos dienos darbu prie antenu pazaidziau ir baltic conteste truputi. Diapazonas visas barskejo nuo iskrovu bet pakenciamai nei galima buvo tiketis. Kadangi dirbau tik su vienu drotgaliu tai kazka rimciau nelabai imanoma padaryti buvo. Is tolimesniu patys ant CQ pasisauke K1DM,K1BV,VE9HF,VE1ZJ,4Z4KX sauke ir PY2EL ar koks ten jo call bet qso padaryti nepavyko kaip ir su dar kokiais 2-3 USA stotimis. Visiems dekui uz QSO...

**ES2MC**  
I guess that ERAU Board and HF Committee are ready to discuss the future of the BC, that obviously needs changes. The „just 80m night-time contest“ has clearly lost its attractiveness and activity seems to be on the decline. Would be interesting to hear suggestions from the participants of different countries – how would they see the potential change of the event?
