Alex OZ7AM - Scandinavian countries winner

After a number of years of absence from the Baltic Contest I decided to make a serious effort. With a fully packed car I adjourned to Jutland (Western Denmark) to set up a temporary station at my aunt and uncle's place in the countryside, to flee the noise of the city and enjoy their outstanding hospitality. The station was up and running in a matter of hours with everything working flawlessly days before the contest.

The antenna was an 18 metre, 16 radial vertical with a loading coil at the feedpoint built for the occasion. The radio was my FT1K with the good old SB-1000 adding 9 dB to my signal. The beer was locally sourced!

The contest was a blast with lots of familiar call signs in the log. The original purpose of the trip was to test out my portable setup and I did not count on winning anything. I was pleasantly surprised to learn that I did in fact win Scandinavia, albeit the number of participants was lower than I expected.

Thanks to everyone who called and answered -- the Baltic Contest is always lots of fun and I'll definitely be back next year!

73,
Alex, OZ7AM

This is my third Baltic Contest. I am very happy with this year's result. Good propagation and big number of participants helped me to get a brilliant result. Thank you everyone who has taken part in the contest.

Baltic Contest Manager

Dear Contesters!

This year Baltic Contest was one of the largest in history. We received 620 logs from 43 different countries. The most active were ham radio operators from Europe – more than 465 participants took part in the contest. Also, we are happy to see the growing number of DX countries. Even operators from French Guiana, Asiatic Turkey, and Kazakhstan joined this year, which made the contest more interesting and expanded its focus beyond Europe. However, it's sad to see the decreasing number of participants from the Baltic States, especially Estonia. We believe that everyone can find an interest in the contest whether it's a way to say hello to your friends from other countries, to beat some record on 80 meters or contact a unique DX country.

Back to the results: it's been a great success for LY operators, who claimed medals for almost all entries in the Baltic States, except for A (MIX), where Valery YL3CW became the winner. A medal for working in CW mode goes to Albertas LY5R; SSB mode winner is WRTC 2018 champion Gediminas LY9A. Vygingtas LY2XW was the best in D (MIX, assisted) category. The best team – LY4A (Rolandas LY4A and Alis LY2BKT), also, Albinas LY-A-3 was the greatest in SWL.

For European operators, congratulations go to Aleksey EW1I, who is the winner of the A (MIX) entry for the second time in a row. The biggest competition was between CW operators, where Alexandr UA5C had to fight at least 238 participants to win a medal.

The best in SSB mode was Jerzy SP5C; and Stanislaw SP9XCN claimed an award for a new MIX assisted category. UZ2I team (Leonid UT2II, Victor UT2IV, Victor US2IR, Valery UY2IF) became the best team in Europe. A medal for SWL goes to Rafal SP7-003-24.

This year we had more participants from DX countries than usual. Ham radio operators from Israel claimed medals in two categories: Andrey 4Z5LY – for MIX mode and Mark 4Z4KX – for CW. The best in SSB mode was Gul EA8ZT. The winner of MIX assisted is Yuri RG9A. The greatest team is from USA – N1SOH (Ethan N1SOH and Jacob W1FM); and SWL award goes to Tomas VK2CCC.

As usual, we would like to say big THANK YOU to donors of the special trophies: Saulius LY4AA, Latvian Radio Amateur League, Estonian Radio Amateurs Union, Mindaugas LY4L, Gediminas LY9A, Kaunas University of Technology Radio Club (KTU RC), Rimantas LY6A, Rolandas LY5AA, Mark 4Z4KX, Lithuanian Amateur Radio Society (LRMD), and Tonno ES5TV. We really appreciate your contribution to the Baltic Contest!

Many thanks for taking part in the Baltic Contest and see you next year!

ES1TAR: First time Baltic Contest, was fun.

DM7X: Very good Contest

G3TXF: With so many Radio Amateurs on Lockdown, there was plenty of activity in the Baltic Contest! Perhaps the scoring system could be improved to make it more interesting to focus on working Baltic stations. Using a Baltic Prefix Multiplier (LY1 YL2 ES3 etc...) would increase the incentive to look for Baltic stations. I operated for about 4 hours. Unfortunately my 80m dipole came down in the high winds just before the end of the Baltic Contest! 73 - Nigel G3TXF

Srdan 9A3SMS - Youth (16-20 years) winner

It was nice sunny day, I was setting up, fixing and planning my station for CQ WPX CW. My previous 80m antenna was not working and I decided to replace it. At the end of the day I was very satisfied with my new 80m vertical antenna. After initial testing, it was ready. I saw that the contest will take place today totally by accident. So a big smile was on my face. Although my amplifier still wasn't fixed I decided to give it a go barefoot.

Contest begun, it was slow start but it was much better a bit later. My excitement grew and so did the rate. After few hours of really good fun I pulled the plug. In the end the contest was a great test for new antenna.

This was my second Baltic contest, I hope for even more stations and fun operating next year in this short and exciting contest.
