RULES '22

My very first Baltic Contest was team effort back in 1983. On next year I joined with my own callsign UQ2GLY in SO CW LP category using homebrew 40 W transceiver and dipole about ten meters above the ground.

On that occasion I logged 118 QSOs. For CW keying i did use semiautomatic key and for logging it was of course paperlog. Aftercontest duties included rewriting the log in capital letters on special per-printed contest report sheets and posting them to Contest organizers.

I remember that during the Soviet era this contest was very awaited party and was considered as main annual on-air battle between ham radio contesters in Baltic states.

As many of us I took a longer holidays from the hobby in 90-ties and returned back on Millennium. Since that I have joined 15 Baltic Contests in total achieving second place 4 times, having a "Country Winner trophy" twice and finally having a win in my collection.

My contest setup this time consisted of INV VEE @25m for transmitting and four 176m long beverages for receiving purposes. Transceiver was Elecraft K3 along with kW PA.

Many thanks to organizers and sponsors for their job as well as all participants for QSOs and positive feelings. See you next BC!

Dear all,

Have you noticed that Baltic Contest is among the oldest contests in amateur radio history? This year we all participated in the 57th 'edition' of the Baltic Contest.

In total 470 logs from 40 different countries around the world were received, which is a little bit less than on previous year. However, while reading the soapbox, it was nice to notice that there were a few people, who took part in the Baltic Contest for the first time. So, there is still a possibility to grow bigger in the future.

I'd like to thank everyone who made this contest possible: all participants, the Baltic Contest organizing committee mem-

bers, and the special trophies sponsors: Saulius LY4AA, Latvian Radio Amateur League, Estonian Radio Amateurs Union, Mindaugas LY4L, Gediminas LY9A, Kaunas University of Technology Radio Club (KTU RC), Rimantas LY6A, Rolandas LY5AA, Mark 4Z4KX, Lithuanian Amateur Radio Society (LRMD), Tonno ES5TV, Jonas LY4T, Tautvyas LY2OX, and Mats RM2D. We really appreciate your contribution to the Baltic Contest!

Congratulations to the winners and enjoy reading this booklet. See you in the Baltic Contest 2022!

Gal reikėtų peržiūrėti savo politiką ir prioritetus? O dalyvių skaičiaus kritimu neverta stebėtis, taip yra visose šį pavasarį vykstančiose varžybose. Belieka tik padėkoti organizatoriams už atliktą didelį darbą, linkiu tą gerą energiją išlaikyti ir ateityje.

LY57BC Special Call

We used LY57BC from May 1st to June 1st, 2021, so the activation period was a bit longer than previously with LY56BC callsign. The majority of operators from the last year agreed to join the LY57BC activation team: Algirdas LY2BMX, Arvydas LY2DX, Pranas LY2J, Mindaugas LY4L, Marius LY4Z, Karolina LY5XX, and Dainius LY5YY. This year Rolandas LY5AA and Arnas LY5AX additionally joined the team.

The aim was to promote Baltic Contest, to invite people to take part in the contest, and to make as many contacts as possible on different bands and modes. So, in total we've made 6542 QSOs on 11 different bands, using digi, CW, or phone mode.

QSOs by Different Modes

The most active operator with LY57BC was once again Pranas LY2J. He made 1001 CW and 3524 digi contacts. Pranas received a special award (seen in the photo) for his contribution.

All contacts made with LY57BC callsign are already loaded into LoTW and eQSL platforms. Paper QSL cards are also available upon request (if you need one, please contact Karolina LY5XX).

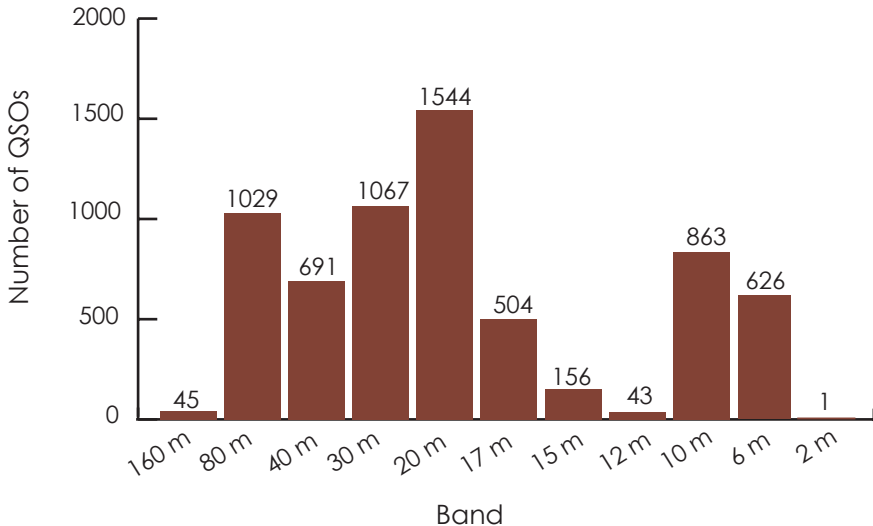

I'd like to thank all the operators, who took part in LY57BC activation and also people, who made contacts with LY57BC.

Thank you for your participation and see you next year!

73! Karolina LY5XX

I think I worked Baltic Contest for the first time in 2004. I have a Booklet with results for 2004 and found my call, SM3LIV. Since 2007, I have worked the contest every year with the call SI3A and the last two years with the call SI9YL.

As usual I worked the contest from our summer QTH with our Yaesu FT-991A, Acom 1000 Linear Amplifier and a Dipole Antenna. The contest is perfect, only a few hours, starts late in the evening and ends early in the morning and QSOs only on one band.

The contest is perfect, only a few hours, starts late in the evening and ends early in the morning and QSOs only on one band.

I try to plan so I can join the contest and it is interesting to look at my number of QSOs every hour compared to previous years. This year I worked more QSOs the last hour than I have done in the last years.

Hope more hams discover this fun and short contest.

I am also pleased to have received many "Young Lady Trophy" and one "Scandinavian Countries Trophy".

A great thanks to the organization around Baltic Contest and to all hams who works the contest.

Look forward to meet you all next year.

73 es 88,

Thank you very much for the contest and also for the reward bc 2020. I took part in the BC contest for the first time in 2004. I was a swl beginner and took 8th place. I got a booklet with the results, which I have until today in my collection. I really like this contest, it is not too long, so I can spend a few night hours and have lot of fun. Most of my swls is on cw, but I spend some time on ssb for better result. I often hear qso between LY-LY but i don't understand the reports, I'll try to learn Lithuanian numbers for the next BC contest :) Best 73! And see you next year. Rafal Sp7-003-24.

Many thanks to the Baltic Contest sponsors!
